FarmSight[®]
JOHN DEERE

Help is at hand from our FarmSight specialists...

Services Overview

Many of our John Deere customers are already familiar with the benefits of Agricultural Management Solutions (AMS) technology. Templetuohy Farm Machinery Ltd., are proud to present the following services tailored to help you gain more productivity from your equipment and AMS products. Welcome to TFM FarmSight.

- **Basic Training** - Operator training, machine optimisation, using precision guidance technology, Greenstar basics, wireless data networks, field boundaries and steering sensitivity.
- **Advanced Training** - For more advanced users, we can also provide training on data management, yield mapping, harvest map reports, in-field live set up, harvest lab, spray pro, variable rate and variable rate prescriptions.
- **JDLINK™** - Using the power of JDLINK will optimise productivity, increase uptime and boost profits with machine information accessible from a laptop, desktop or mobile device. With remote monitoring of reports and operator guidance training available to the customer and TFM.
- **GreenStar™ Software** - Our FarmSight team are on hand to keep your technology as well looked after as your machines, with services catering for activations, calibrations, data clean-up, information and settings transfer / upgrade.

Demonstrations - Machine / equipment demonstrations - Tractors, combines, sprayers and SPFH.
- **AMS Products** - Screens / Receiver, ATU Systems and Pro Modules.
- **RTK** - Use cropping practices that require the ultimate in accuracy? Then go with RTK. It provides +/- 2.5cm accuracy and repeatability pass to pass.
- **Sales Consultancy** - We will guide you through the whole process. From point of sale through to installation at the dealership or on your farm.

Getting Started

Installation of any hardware or software required

Operator training initial registration and activation of hardware

MyJohnDeere setup & training

The above is included with the purchase of new precision farming equipment for the first 12 months.
